- **Australian Building Codes Board – Various Consultations**
 - **National Construction Code 2025 – Public Comment Draft.** The ABCB has released the proposed changes to the next edition of the NCC. **Comments close Monday 1 July 2024.** Further details can be found at [National Construction Code 2025 Public Comment Draft - Australian Building Codes Board - Citizen Space \(abcb.gov.au\)](#)

- **Consultation Impact Analysis: Adequacy of Female Public Sanitary Facilities.** The ABCB has received multiple proposals for change expressing concern about the adequacy of NCC provisions for female Sanitary facilities. Consequently, the ABCB is proposing deemed-to-satisfy provisions for the next edition of the NCC, which will increase the number of closet pans for female patrons in Class 9b buildings – single auditorium theatres and cinemas. **Comments close Monday 1 July 2024.** Further details can be found at [Consultation Impact Analysis: Adequacy of Female Public Sanitary Facilities - Australian Building Codes Board - Citizen Space \(abcb.gov.au\)](#)
- **Consultation Regulation Impact Statement: Commercial Energy Efficiency Provisions.** The ABCB has been undertaking work to scope potential energy efficiency changes for commercial buildings in the next edition of the NCC. The proposed provisions are included in the NCC public comment draft. An in-depth analysis of the impacts (costs and benefits) of the proposed provisions is now open for public comment. **Comments close 11:59pm Monday 1 July 2024.** Further details can be found at [Consultation Regulation Impact Statement: Commercial energy efficiency provisions - Australian Building Codes Board - Citizen Space \(abcb.gov.au\)](#)
- **Consultation Impact Analysis: Condensation Mitigation Measures.** The ABCB has been undertaking further work on provisions to mitigate condensation risks. The proposed technical changes are in Part F8 (Volume One) and Part 10.8 (ABCB Housing Provisions) of the NCC public comment draft. These changes impact residential and residential-like buildings (Class 1, 2, 3, 4 and 9c buildings). The proposed changes include cavity-dependent vapour permeance requirements for external walls and expanded roof ventilation requirements to better align with practical design and construction practices in Australia. **Comments close 11:59pm Monday 1 July 2024.** Further details can be found at [Consultation Impact Analysis: Condensation mitigation measures - Australian Building Codes Board - Citizen Space \(abcb.gov.au\)](#)
- **Consultation Regulation Impact Statement: Waterproofing and Water Shedding Provisions.** About the consultation research has indicated that serious defects related to waterproofing are the most common defects in buildings compared to other areas, such as fire safety, building enclosures, structural integrity and key services. A lack of Deemed-to-Satisfy provisions is considered to have contributed to problems, including poor design and documentation, a hit-and-miss approach to performance solutions and sub-standard construction outcomes. In turn, these problems are contributing to waterproofing defects. **Comments close 11:59pm Monday 1 July 2024.** Further details can be found at [Consultation Regulation Impact Statement: Waterproofing and water shedding provisions - Australian Building Codes Board - Citizen Space \(abcb.gov.au\)](#)
- **All-gender Sanitary Facilities.** The ABCB has released a consultation on the potential inclusion of all-gender sanitary facility provisions in the National Construction Code. Suggested changes are a voluntary deemed-to-satisfy pathway in Section F, F4 Sanitary and Other Facilities and replacing and consistently using 'gender' instead of 'sex' and 'accessible' instead of 'unisex' throughout the NCC. **Comments close 11:59pm Monday 1 July 2024.** Further details can be found at [All-gender sanitary facilities - Australian Building Codes Board - Citizen Space \(abcb.gov.au\)](#)
- **Minor Amendment to Territory Plan MA2024-i** – Various changes to zone and district policies and dictionary definitions. Proposed changes include:
 - Amend the land use tables in various district policies to include 'early childhood education and care' as an additional assessable development on PRZ2 Restricted Access Recreation zoned blocks where already permitted in the lease.
 - Amend Assessment Requirement 2 in the Belconnen District Policy to include the previous provision allowing plant room elements set back a minimum of 3m from the building façade of the floor immediately below to be excluded from the number of storeys.
 - Amend the Inner South District Policy to remove the mandatory Assessment Requirement 7 for maximum number of storeys.
 - Amend Assessment Requirement 24 in the Woden District Policy to reinstate the provision for plant room to be excluded from the number of storeys where set back a minimum of 3m from the building façade of the floor immediately below.
 - Amend Assessment Requirement 33 in the Woden District Policy relating to the Phillip pool site to include a provision allowing an additional 3m to be added to the height limit for the building containing the Phillip pool facility.
 - Amend Assessment Requirement 1 in the Residential Zones Policy to clarify the site coverage requirements for single dwellings on subdivided blocks in the RZ2 to RZ5 zones.
 - Amend Assessment Requirement 22 in the Residential Zones Policy to clarify that the provision also relates to new additions or alterations to a dwelling.
 - Amend Assessment Requirement 23 in the Residential Zones Policy to clarify that it relates to housing density by adding a heading for the assessment requirement under the Control column.
 - Amend the Non-Urban Zones Policy and Commercial Zones Policy to permit 'data centre' in the NUZ1 Broadacre Zone and CZ3 Services Zone respectively.
 - Amend Assessment Requirements in the Gungahlin District Policy to allow community housing on Block 4 Section 23 Moncrieff and Block 4 Section 235 Gungahlin as a standalone use.
 - Amend the definition of 'community use' to clarify that 'veterinary clinic' is a form of community use by including it in the definition.
 - amend the definition of 'datum ground level' to require that determination of datum ground level is in accordance with the Surveyor-General Guideline No. 3: Estate Development Plans and Datum Ground Level'.**Comments close COB Monday 15 July 2024.** Further details can be found at [MA2024-i – Various changes to zone and district policies and dictionary definitions \(act.gov.au\)](#)
